RELOCATING

After 10 years BARI Designs, a leader in Custom Furniture Manufacturing is moving into the New Riverside Industrial Park location. The new state-of-the-art 26,000 sq. ft. building is going to be built on their 1.2 acre lot at 12180 Riverside Way, Richmond, next to the Grand Ballroom across from Panasonic.

BARI Designs, in conjunction with The Business Development Bank of Canada and Opus Building Canada Inc. is set to commence construction mid-November. Move-in is scheduled for May 2007.

BARI Designs Ltd. is a Custom Furniture Manufacturer which caters to the trade, interior designers and architectural firms. Custom furniture from BARI has been shipped to international locations such as Hong Kong, London England, Hawaii, New York, Chicago, Los Angeles, San Francisco and Seattle. Projects in Canada include Toronto, Winnipeg, Calgary, Kelowna and Whistler. There have been numerous projects locally including the private boxes at the grand opening of GM Place, but the most inspiring project is the furnishings at The George Bar in Yaletown, which was designed by Mitchell Freedland Design of Vancouver.

According to Giovanni Pavone, President of BARI Designs Ltd., "The new facility will be a welcome relief. Currently production is done under several locations. The larger premises will help to increase capacity and streamline production. BARI also intends to hire an additional 10 new employees in the next two years to keep up to expected demands."

BARI is open to the "Trade Only."
